8.2 TRADING PLATFORM

- 8.2.1 All rights and interests and all intellectual property rights (including, without limitation, all trademarks and trade names in or relating to the Company) are owned by the Company or the Company’s suppliers or licensors and will remain the Company’s property or that of the

Company's suppliers or licensors at all times. The Customer will have no right or interest in those intellectual property rights other than the right to access the Trading Platform. The Customer shall not copy, license, sell, transfer, make available the Trading Platform or information on the Trading Platform to any other person. The Customer shall not remove or alter any copyright notice or other proprietary or restrictive notice contained in the Trading Platform.

- 8.2.2 The Customer agrees that the Company shall have the right to perform Trading Platform routine maintenance with an expected downtime between 1 (one) to 20 (twenty) minutes. During downtime, the Customer may be logged out and required to log back in to services and will not be able to access the Trading Platform, open new positions, close existing positions, transfer funds, and/or any other related actions. The Customer shall be solely responsible to ensure that he/she has sufficient margin to support his/her Open Positions during the downtime. The Company will not be responsible for any loss arising due to any of the above.
- 8.2.3 The Company may revise, Update, discontinue (temporarily or permanently) or update the content, features and functions and the user interface of the Trading Platform or any part or element thereof at any time without prior notice, in its sole discretion, including without limitation by removing such features and functions or taking such action as is necessary to preserve Company's rights upon any use of the Trading Platform and/or the Services that may be reasonably interpreted as violation of Company's intellectual property rights, distribution of internet viruses, worms, trojan horses, malware, and other destructive activities or illegal activity.
- 8.2.4 The Company makes no express or implied representation:
- (i) that the Trading Platform will be available for access all the time, or at any time on a continuous uninterrupted basis (access to the Trading Platform may be affected, for example, by routine maintenance as described above, repairs and upgrades);

- 8.2.5 The Customer agrees not to either intentionally, recklessly, negligently or otherwise:
- (i) use the Trading Platform for unlawful purposes or in any manner that breaches the terms of this Agreement;

- 8.2.6 From time to time, acting reasonably, the Company shall have the right to provide Updates of the Trading Platform without liability under these Terms and Conditions.
- 8.2.7 Please note that even that in some cases CFD abbreviation is mentioned on the Trading Platform, it actually means CDI as defined in these Terms and Conditions. The reason for using the incorrect abbreviation is that the third-party software is standardized and as such intended

for different purposes and it is not possible to change some of its parameters. The incorrect abbreviation does not change nature of the trading with the company.

8.3 INSTRUCTIONS AND ORDERS

- 8.3.1 The Customer understands and acknowledges that the Company will enter into Transactions with the Customer as principal (counterparty) not as an agent. The Company will be the contractual counterparty to the Customer.
- 8.3.2 The Customer can open and close a position via the Trading Platform and can add or modify orders by placing "buy limit", "buy stop", "sell limit", "sell stop", "stop loss" and/or "take profit" orders.
- 8.3.3 The Customer further ratifies and accepts full responsibility and liability for all instructions given to the Company by the representative (and for all Transactions that may be entered into as a result) and will indemnify (fully compensate or reimburse) the Company and keep the Company indemnified against any loss, damage or expense incurred as a result of acting on such instructions. This indemnity shall be effective irrespective of the circumstances giving rise to such loss, damage, or expense, and irrespective of any knowledge, acts or omissions of the Company in relation to any other Account held by any other person or body with the Company.
- 8.3.4 The Company reserves the right at its own discretion, without the Customer's consent, due to risk management policies to transfer the Customer's execution to a third-party liquidity provider, limit customers leverage, number of available instruments or place his account on read only (prevent opening of new trades) – at any time without prior notice.
- 8.3.5 In case of any event that may influence the price, amount or availability of any Digital Asset that is allowed for trading at the Trading platform, the Company reserves the right to make appropriate adjustment to the opening/closing price, size, value and/or quantity of the corresponding Transaction (and also the level or size of the corresponding Orders); restrict long/short selling, cancel trades, close any positions the Customers have, cancel pending orders or even withdraw the specific Digital Asset from the Trading Platform without prior notice.
- 8.3.6 Determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the Transaction (and/or the level or size of any Order) or any other action described in Section 8.3.5 of these Terms and Conditions shall be at the Company's sole discretion and shall be conclusive and binding upon the Customer. The Company shall inform the Customer of any adjustment or amendment via the email or Trading Platform as soon as is reasonably practicable.
- 8.3.7 The Customer acknowledges that Orders shall be executed at the bid and ask prices that are offered by the Company. Due to the high volatility of the market as well as the internet connectivity between the Customer terminal and the Company's server, the prices requested by the Customer and the current market price may change in the period between the Customer placing his Order with the Company the time the Order is executed. The Customer acknowledges that in the case of any communication or technical failure which results in the quotation of off-market prices on the quotes feed (i.e. prices to freeze/stop updating or price spikes), the Company reserves the right not to execute an Order or, in cases in which the Order was executed, to change the opening and/or closing price of a particular Order or to cancel the said executed Order.

- 8.3.8 Considering the levels of volatility affecting both price and volume, the Company is constantly seeking to provide Customer Orders with the best execution reasonably possible under the prevailing market conditions. Customer's Orders (Buy/Sell, Buy Limit, Buy Stop, Sell Limit, Sell Stop, Stop Loss and/or Take Profit) are executed at the requested/declared price. However, during periods of volatile market conditions, during news announcements, on opening gaps (trading session starts), or on possible gaps where the underlying instrument has been suspended or restricted on a particular market, Buy/Sell Stop and Stop Loss orders may not be filled at requested/declared price but instead at the next best available price. In such case, Take Profit orders below/above Buy Stop/Sell Stop orders or Stop Loss orders above/below Buy Stop/Sell Stop orders during activation will be removed. The same execution policy applies when a trading strategy is deemed as abusive, because it is aiming towards potential riskless profit or another strategy deemed by the Company to be abusive. Accordingly, placing a Stop Loss order will not necessarily limit the Customer's losses at the intended amount.
- 8.3.9 The Company shall not be liable for any delays, inaccuracies or other errors in the transmission of any Order, instruction or information from the Customer to the Company due to any cause beyond the reasonable control of the Company. Delays can be caused by various reasons depending on the current market conditions (e.g. high market volatility) as well as a slow/weak internet connection (e.g. between the Customer's terminal and the Company's server).
- 8.3.10 **"Manifest Error"** means a manifest or obvious misquote by the Company or any market, liquidity provider or official price source on which the Company has relied in connection with any Transaction, having regard to the current market conditions at the time an Order is placed as the Company may reasonably determine. When determining whether a situation amounts to a Manifest Error, the Company may take into account any information in its possession, including information concerning all relevant market conditions and any error in, or lack of clarity of, any information source or announcement. The Company will, when making a determination as to whether a situation amounts to a Manifest Error, act fairly towards the Customer but the fact that the Customer may have entered into, or refrained from entering into, a corresponding financial commitment, contract or Transaction in reliance on an Order placed with the Company (or that the Customer has suffered or may suffer any loss) will not be taken into account by the Company in determining whether there has been a Manifest Error.
- 8.3.11 In respect of any Manifest Error, the Company may (but will not be obliged to):
- i. the details of each affected Transaction to reflect what the Company may reasonably determine to be the correct or fair terms of such Transaction absent such Manifest Error; or
 - ii. declare any or all affected Transactions void, in which case all such Transactions will be deemed not to have been entered into.
- 8.3.12 The Company will not be liable to the Customer for any loss (including any loss of profits, income or opportunity) the Customer or any other person may suffer or incur as a result of or in connection with any Manifest Error (including any Manifest Error by the Company) or the Company decision to maintain, amend or declare void any affected Transaction, except to the extent that such Manifest Error resulted from the Company own wilful default or fraud, as determined by a competent court in a final, non-appealable judgment.
- 8.3.13 Considering the volume of the Customer's Order and the current market conditions, the Company shall have the right to execute part of an Order only.

- 8.3.14 The Company has the right at its discretion to increase or decrease spreads, increase or decrease leverage offered, or Commissions of Instruments depending on the current market conditions and the size of the Customer's Order.
- 8.3.15 The swap rate is mainly dependent on the level of interest rates as well as the Company fee. for having an Open Position overnight. The Company has the discretion to change the level of the swap rate at any given time and the Customer acknowledges that he will be informed by the Website or the Trading Platform. The Customer further acknowledges that he is responsible for reviewing the contracts specifications located on the Website or the Trading Platform for being updated on the level of swap rate prior to placing any Order with the Company.
- 8.3.16 Internet, connectivity delays, and price feed errors sometimes create a situation where there is price latency on the Trading Platform such that there is a disparity between the Company quoted prices and current market prices for short periods. Customer expressly acknowledges and agrees that it shall not execute Transactions with the Company that rely on price latency arbitrage opportunities either by using additional functionalities/plugin-ins (i.e. Expert Adviser, etc.) or by any other means. If the Customer acts in contravention of this clause the Company reserves the right to (i) make corrections or adjustments to the relevant Transaction execution prices to reflect what would have occurred had there been no price latency arbitrage; and/or (ii) cancel all the relevant Transactions; and/or (iii) terminate without notice the Customer's Account with the Company; and/or (iv) charge an administration fee equal to 10% of the deposited funds, with the maximum charge set at USDC 200 or deposit Digital Asset equivalent.

8.4 MARGIN LEVERAGE LEVELS

- 8.4.1 As a condition of entering into a Transaction in leveraged Instruments, the Company requires the deposit of Margin to secure the Customer's liability to the Company for any losses which may be incurred in respect of the Transaction. The "**Leverage Level**" is the ratio of Margin to the market value of the open Transaction position which it secures. By accepting these Terms and Conditions the Customer has read, understood and accepted the "Leverage Levels" as these are uploaded in the Website. The Leverage Level of a Customer's Account(s) may be changed by the Company in its absolute discretion.
- 8.4.2 Margin requirements or Leverage Level may be set and varied without prior notice from time to time in the Company's sole and absolute discretion in order to cover any realized or unrealized losses arising from or in connection with Transactions, including subsequent variation of any Margin rates set at the time Transactions are opened. The Customer can request to change his account leverage at any time by contacting the Company. The Customer acknowledges that the Company has the discretion to change the Customer's trading account leverage at any given time, without the Customer's consent, either on a permanent basis or for a limited period of time. Such an event will be disclosed to the Customer by the Company via the Trading Platform or by email.
- 8.4.3 **The Customer is obliged to maintain in his Account, at all times, sufficient funds to meet all Margin requirements (i.e. At-least 100% of required margin).** In addition, the Company will be entitled to treat any assets deposited with it by the Customer from time to time as collateral

against the Customer's Margin requirements. Only funds received which relate to the transfer, will be credited as paid.

- 8.4.4 In the event there is insufficient Margin in the Customers Account or in the event that the deposited Margin is not sufficient to meet the required Margin rates, as determined by the Company it may immediately close or terminate the Customer's Transaction and Account without notice. **Without prejudice to the generality of the foregoing, the Company shall have the right, but shall not be obliged, to start closing Customer's positions when the Margin is less than 100% of the Margin or Leverage Level requirement.** In the case where the Margin is equal to or less than 30% of the Margin or Leverage Level requirement, then Customer's positions shall be automatically closed, at the then market price.
- 8.4.5 The Customer acknowledges that he/she is responsible for monitoring the Margin on his Account located on the Website prior to opening an Account and/or placing any Order with the Company.

8.5 MARKET ABUSE.

- 8.5.1 The Customer shall not use the Trading Platform for Orders or Transactions for or in connection with any activity which may constitute a fraudulent or illegal purpose or market abuse or otherwise use of the Trading Platform in contravention of any Applicable laws. For the purposes of these Terms and Conditions "**Market Abuse**" means behavior in relation to investments which involves insider dealing, market manipulation or market distortion in breach of Applicable laws. The Customer undertakes to familiarize himself and comply with any Applicable laws and the Customer will ensure that his/her use of the Trading Platform will not result in a breach by the Company of any Applicable laws concerning or any terms of these Terms and Conditions.

8.6 REFUSAL TO EXECUTE ORDERS.

- i. If there is insufficient Free margin in in the Customer Account to cover purchase and any applicable charges;
 - ii. If the execution of the Order would have an adverse effect upon the smooth operation or the reliability of the Trading Platform and/or affect the orderly function of the market;
 - iii. If the Order or its execution may have the object or effect of Market Abuse;
 - iv. If the Order may have the object or effect of money laundering in contravention with Applicable laws.
 - v. If the execution of a Customer's Order may constitutes an abusive exploitation of privileged confidential information, abuse the negative balance protection or constitutes an abusive exploitation of prices.
- 8.6.2 The Company reserves the right to refuse the execution of Order and/or modify the opening/closing price of an Order if a technical or other error occurs.
- 8.6.3 The Customer understands and accepts that if the Company was to refuse the transmission and/or execution an Order, it shall not affect any obligation, which the Customer may have

towards the Company, or any right, which the Company may have against the Customer or his/her assets.
